

# LEADERSHIP SAFARI

## A dynamic big 5 wilderness adventure

**Leadership development** The central theme of this weekend revolves around releasing your leadership potential through the enneagram system, setting personal goals as a leader and achieving new insights. We support you to anchor your leadership style based on personal strengths in your daily life. Outdoor leadership workshops are combined with one-on-one leadership coaching in nature. We aim to work with directors, leaders, managers, entrepreneurs and self-employed professionals who want to grow as a leader. Participants would share the belief that behaviours, intentions and interactions are key for the success of their endeavours.

**Accredited by ICF & FGASA** In an inspiring wilderness environment, we share our progress with a maximum of eight participants in order to build and secure a safe space for you to learn and grown. With wilderness as an extra motivator we will reach leadership objectives much quicker and more naturally. This is the perfect starting point for a leap in leadership development. We are accredited by the Field Guides Association of Southern Africa and are registered coaches at the renowned International Coaching Federation.

**Safari Life** A beautiful private lodge in a magnificent game reserve will be our home. Luxury living combined with great hospitality forms the canvas for your leadership safari. The swimming pool with its stunning view over the savannah and its waterhole allow fantastic game viewing from the veranda and private chalets. For you to grow as a leader, you only have to bring an openness to learn and to make room inside for growth for yourself and the other participants. Leave the rest up to the hands of experienced coaches, guides and – of course – nature.

# LEADERSHIP SAFARI

## A dynamic big 5 wilderness adventure

The African wilderness is the best reflection- and coaching tool on earth and represents the ultimate classroom for an inspiring 3-day leadership development weekend.
